

Protecting businesses against **cyber risk**

CFC's market-leading cyber insurance products are trusted by businesses around the globe to protect them against cyber risk.

20+ years' experience

80,000+ global cyber customers

65+ countries

The cyber insurance provider of choice

Our cyber insurance solutions are designed to help prevent cyber attacks from happening. If one does occur, we drastically reduce the impact and potential financial loss. Each and every customer benefits from:

Proactive cyber attack prevention

Safeguarding your business

We provide vulnerability scanning, threat monitoring and real-time cyber attack prevention throughout the lifecycle of your policy to help prevent cyber attacks.

Unrivaled cyber claims and incident response

24/7 follow-the-sun support

We have the largest in-house incident response and dedicated claims teams in the market, with real-world experience and deep technical expertise to help get you back online.

Award-winning cyber cover

Built for corporates

We offer bespoke, comprehensive cyber cover for enterprises, backed by more than 20 years' experience in the market.

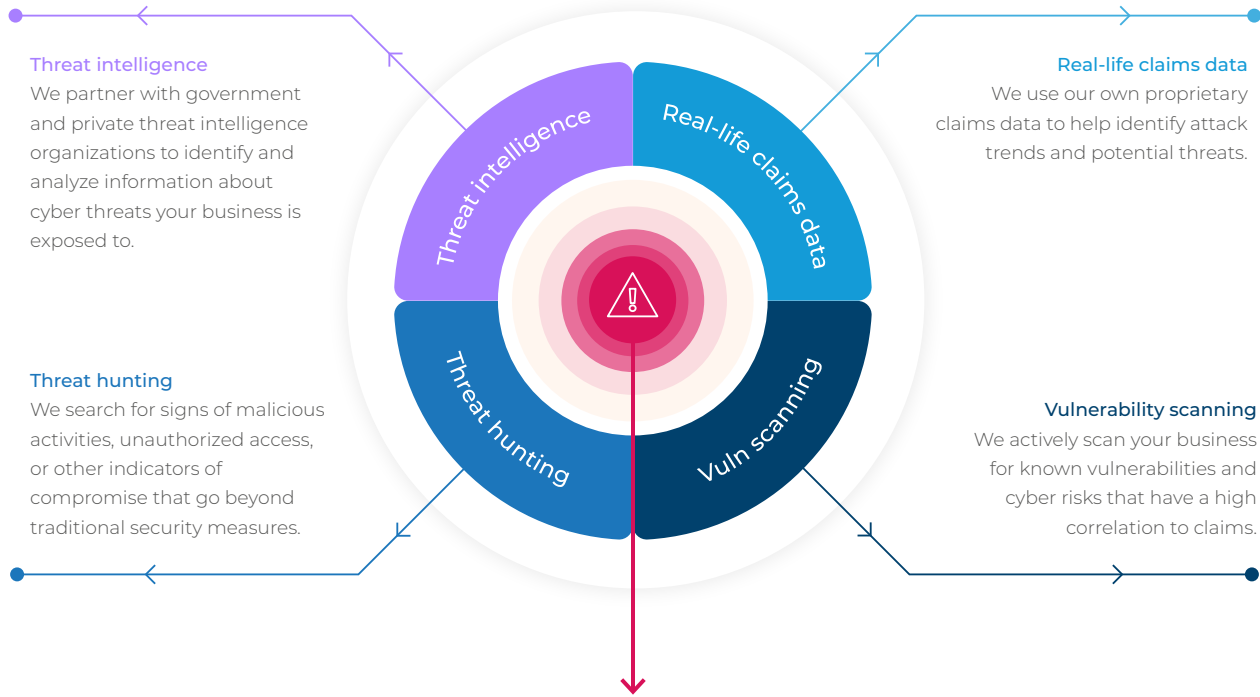

Cyber Insurer of the Year

Zywave Cyber Risk Awards

Proactive cyber attack prevention

From the moment you take out a CFC cyber policy, we work around the clock to protect your business against cyber attacks. Using insights from threat intelligence feeds, the dark web, network scanning and our own real-life claims data, we identify potential threats and alert vulnerable customers before the worst happens.

Critical threat alerts via our mobile app for cyber

We notify you of cyber threats targeting your business in real time.

24/7 access to cyber security experts

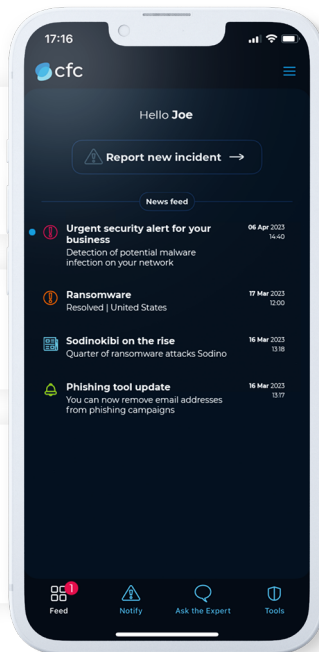

Expert technical support in an immediate and secure channel

Report an incident

The fastest way to notify us of a cyber incident

Cyber Risk Event Response Team of the Year

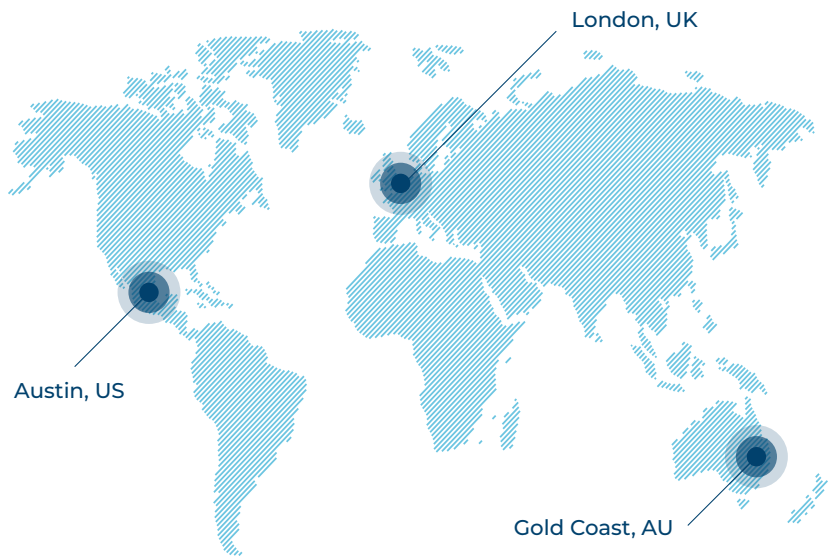

Zywave Cyber Risk Awards

24/7 follow-the-sun approach

<15 min technical response time

2,500+ cyber events handled each year

130+ security experts

Our remediation process

Technical expertise and real-world experience can make the difference between suffering a catastrophic loss or getting back online quickly.

1

Notify

Available 24/7, the fastest way to notify CFC of a cyber incident is **through our mobile app, Response**. Customers can also notify via email, phone or the website.

2

Triage

A **technical incident responder** will be in touch within 15 minutes to assess the situation and identify the necessary resources to address the incident.

3

Contain

CFC **activates its expert, in-house team** of cyber security engineers, to contain and work with your internal teams to remediate the incident. We can also engage reputable third-party specialists to help with activities like reputation management and breach notification, if required.

4

Recover

Once the issue is contained, our team works around the clock to assist in rebuilding systems, reconstituting data and helping to get the business **back online** as soon as possible.

Market-leading cover highlights

Our comprehensive and robust cyber cover includes first-party costs, third-party liability and access to the largest in-house cyber security team in the market.

Broad non-physical perils business interruption cover

Protection against true operational IT risk, including software bugs and botched upgrades.

Nil deductible on initial incident response costs

In-house experts are available 24/7 to help with initial incident response, at no extra cost to you.

Tech supply chain failure

Coverage for contingent business interruption for your technology supply chain on an all non-physical perils trigger.

Full retroactive cover with a discovery-based trigger

No retroactive date as standard, aligning cover with when the incident was first discovered.

System repair and rebuild costs

Full cover for the costs of reconfiguring and rebuilding computer systems (including data re-creation costs).

Emergency costs provision

72 hour period where costs can be incurred with pre-approved partners without our consent.

No warranties or conditions that require you to have certain cyber security measures in place.

Award-winning cyber claims team

Our in-house team has over 20 years' experience handling cyber claims.

We resolve more than 2,000 cyber claims annually, ranging from ransomware attacks to data breaches, business interruption and more.

Expedient and extremely helpful. We were immediately educated on the dynamics of the type of cybercrime we encountered and then informed in detail about our specific situation. Stress was replaced with a proactive plan. What an amazing team of experts!
