

About Alpha Secure

Alpha is a surplus licensed MGA providing cyber insurance programs, leading-edge technology, and expert services that enable businesses to survive and thrive in the face of growing cyber risks.

Premiums from
\$1000
per year

- ✔ Market leading coverage with fairly priced risk transfer from “A” and “A+” rated carriers.
- ✔ Proprietary cyber software carefully designed to provide a non-invasive yet robust security posture for small businesses,
- ✔ Full coverage plus key security tools including offsite data backups, MFA, and EDR; or the insured is welcome to use their own controls.
- ✔ Expert claims and best in class incident response handling,
- ✔ A commitment to customer success through human touch; from quoting and onboarding to ongoing support.

Our **cyber coverage + proprietary cybersecurity technology** generates a high level of digital resilience for a complete defense. And, for businesses with their own security software, we offer a robust cyber risk transfer program.

Flexible end-to-end solutions

We meet businesses where they are with their security posture and offer comprehensive cyber coverage at competitive prices. For an all-in-one solution, our insurance plus software model is both proactive and reactive; in return for strengthening their cyber posture through our software, we offer a premium discount and significant coverage improvements.

Simple steps to total security

We provide custom risk assessments, the ability to bind online, tailored cyber insurance programs, a streamlined implementation of the software, and expert hands-on support.

Evolved approach to an evolving problem

Our unique model enables us to respond to real, modern cyber threats that are changing every day. We stay a step ahead of threat actors to defend against today's attacks and prepare for the next generation of cyber threats.
