Endpoint Detection and Response (EDR)	✓	✗ - extra software up to \$1800
Antivirus Alerts & Insider Threat Detection	✓	✗ - extra software up to \$3000
Patching & Version Testing	✓	✗ - extra software up to \$1200
Security Operations Center (SOC)	✓	✗ - extra software up to \$4000

One product, one price, no nonsense

A full suite of cyber protection and support, all wrapped into the premium.

Enhanced Coverage

By using our software, businesses get lower Retentions, lower Waiting Periods, and longer Periods of Restoration.

Single Software Solution

One-click installation and a set of crucial features, like data backups and MFA to defend against ransomware.

In-House Expert Support

Real-time threat detection and escalation to our SOC, and on-demand help from our Customer Success team.

Insurance fused with security software for a complete defense.
